

Bermel PaperCut ePay is an entry level ePayment solution that uses PayPal as the payment provider. With low transaction fees and no setup costs, Bermel PaperCut ePay facilitates an inexpensive lightweight option for those wanting to add an ePayment option for PaperCut, without the tie-in and long term commitments required by other ePayment Solutions.

## Allow users to transfer money into PaperCut account balances using PayPal -

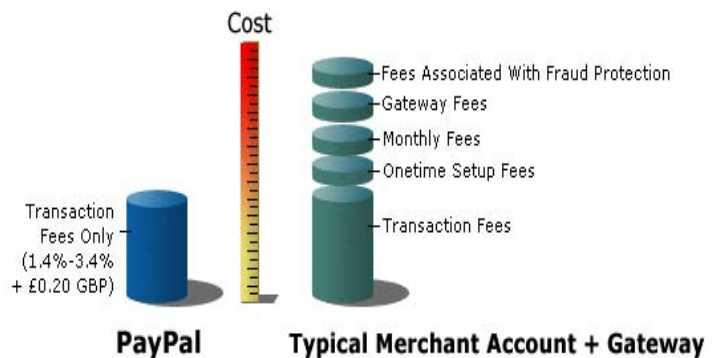

- Cost effective entry level ePayment solution
- Built in management interface for auditing and reporting
- No setup or cancellation costs
- No monthly or annual subscription fees
- Runs internally on your network. Web hosting not required
- Credit\Debit card support
- Secure payments via the PayPal secure payment gateway
- No lengthy application process

## The PayPal advantage

Not sure about PayPal? PayPal account holders transact an average of over \$8.1 billion USD through PayPal every quarter. That's \$2 million USD per hour, and \$48 million USD a day. PayPal maintains a network of 100 million accounts growing by 104,500 a day worldwide.\*
